

Profile

Results-driven Business Operations Analyst with a strong foundation in Customer Success within cybersecurity SaaS environments. Experienced in partnering with Customer Success leadership to translate business requirements into scalable system configurations, workflows, and automation, driving customer lifecycle management, retention, and efficiency. Hands-on experience managing and optimizing the CS tech stack (Gainsight, Zendesk, Salesforce, etc.), with expertise in health scoring, churn & contraction risk analysis, renewal tracking, and KPI reporting. Known for translating complex data into clear, actionable insights through executive dashboards, and for leading cross-functional projects and initiatives end-to-end.

Skills & Tools

Tools & Platforms

Gainsight (NXT Certified), Salesforce (CRM), Zendesk, Claude (AI), Atlassian (Jira & Confluence), Gong, Slack, Pylon, Forecast Pro.

AI & Automation

AI use-case design & delivery, Pylon AI notebooks & risk intelligence, Claude skills & connectors (MCP), workflow automation & triggers, LLM-assisted reporting.

Data & Reporting

Dashboard design & executive reporting, CS KPIs ownership (health score, TTV, CSAT, NPS, SLA compliance), churn & contraction risk modeling, revenue & pipeline reporting, data quality checks, Looker, Explore Analytics, Python, Basic SQL.

Customer Success & Ops

Customer lifecycle management, CX strategy, UAT, platform migration, playbooks, process standardization, documentation, enablement.

Soft Skills

Cross-functional collaboration, proactive problem-solving, attention to detail, project management, communication, leadership, ability to work under pressure.

Professional Experience

Arkose Labs, Customer Experience Team | San José, Costa Rica

Business Operations Analyst - Customer Success

Dec 2024 – Present

- Act as a **strategic operations partner** to Customer Success leadership, translating business requirements into scalable system configurations, automation workflows, and reporting structures.
- Led the end-to-end migration of the CS platform from **Gainsight to Pylon** (POC through go-live), coordinating directly with the vendor, tracking feature requests, resolving blockers, and running UAT and enablement. Consolidated the CS tech stack, cut redundant tooling cost, and enabled native AI including a Claude connector. **Recognized with a Spot Award nomination** for cross-functional leadership across CX, the vendor, and CS.
- Administer and optimize the **CS tech stack** (Gainsight, Zendesk, Gong, Slack, Pylon, Salesforce, Harvest), including configuration of rules engine, dashboards, reports, and workflows, ensuring data integrity and smooth day-to-day operations.
- Maintain and reconcile **CS performance reporting**, validating churn risk indicators, SLA compliance, NPS/CSAT trends, and TTV metrics to ensure data accuracy and executive readiness.
- Design and implement scalable playbooks (Onboarding, Offboarding, Renewal) and health score frameworks, integrating Salesforce <> Gainsight automations and Slack alerts. **Reduced TTV by ~30%** through onboarding optimization.
- Lead system **integrations** and backend configurations to improve cross-platform data consistency and align tools with CS leadership priorities and business goals.
- Develop **executive dashboards and reporting frameworks** providing real-time visibility into customer lifecycle health, retention risk, and team performance.
- Run **UAT sessions** with CSMs, TAMs, and Professional Services, validating workflows and ensuring successful adoption of new features.
- Manage **Agile-based programs** such as the Subject Matter Expert Program and Technical Enablement initiative, leading cross-functional projects end-to-end and driving alignment, documentation, and readiness for product releases.

Business Operations Analyst Intern - Customer Success

Apr 2024 – Nov 2024

Education

Universidad de Costa Rica

Bachelor's Degree in Industrial Engineering | 2019 - 2024

Highest GPA in class of 2020

Universidad Politécnica de Madrid

Escuela Técnica de Ingeniería y Diseño Industrial | 2022

Exchange Program

Certifications & Courses

- CompTIA Security+ Certification | 2026
- Gainsight NXT Associate Administrator Certificate | 2025
- Zendesk Explore Analytics | 2024
- Zendesk Foundational Support | 2024
- Lean Six Sigma Black Belt | 2024

Languages

Spanish (Native), English (Advanced), French (Basic)

Projects (Academic)

Developed a materials planning software for **Inversiones Jiqui S.A. (2022)**, incorporating demand forecasting models using Forecast Pro and Lean principles to support inventory planning; applied Six Sigma (DMAIC) and statistical control tools (Minitab, Excel) to improve production processes at **AMSA Aerosoles y Maquilas S.A. (2021)**; and assessed INTE/ISO 9001:2015 compliance for **Grupo Financiero CAFSA (2021)**, identifying process improvement opportunities.
